Peter Müller

UX Designer, Google
Munich, Germany
[Email](#) · [LinkedIn](#) · [Portfolio](#)

Summary

User Experience Designer with 13+ years of experience, specializing in developer tools, automotive, energy, and retail. Strong foundation in visual design, computer engineering, and UX, excelling in highly technical and engineering-driven environments. Experience spans agile startups, agencies, and leading big tech companies. Passionate about improving developer experience and building intuitive, high-performance tools.

Experience

Google
UX Designer (Level 5) – Chrome DevTools
Germany, Feb 2020 — Present

- Introduced user-centered thinking and UX methodologies into an engineering-driven culture as the first full-time UX designer on Chrome DevTools
- Launched AI tooling at scale to 20M+ users, designing and validating UI patterns now used industry-wide
- Led the transformation of DevTools' 17-year-old UI into a modern, component-based design system, reducing manual UI review needs and accelerating development
- Prioritized developer experience, helping DevTools reach an 89% user satisfaction rating and solidify its position as the #1 browser developer tool.

Publicis Sapient
Senior Visual Designer
Germany, Jun 2016 — Dec 2019

- Led design projects for apps and websites in the automotive, energy, and retail sectors. Clients included Daimler, Mercedes-Benz, EnBW, Bosch, IQOS.
- Won 1st price at the Digital Communication Awards 2019 for EnBW's corporate website redesign

Jung von Matt/Neckar
Art Director/Digital
Germany, Sep 2014 — May 2016

- Designed digital platforms and creative campaigns for finance, insurance, travel, and retail clients
- Designed Mercedes-Benz-Bank's interactive financing configurator, winning Bronze at the Digital Awards Germany

Scanbot
Designer
Germany, Jun 2012 — Sep 2014

- Worked on UX and UI design for a document scanning app that became one of the most successful scanning apps for iOS and Android
