Peter Müller

Senior UX Designer, Google
Munich, Germany
Email · LinkedIn · Portfolio

Summary

Peter Müller is a senior UX designer at Google, working on Chrome DevTools. He helps to bring new features like code completion, better CSS debugging and AI assistance to millions of web developers. Peter is also studying for a degree in computer science, so he can build what he designs every day.

Experience

Google

Senior UX designer

Feb 2020 – now

Introduced user-centered thinking and UX methodologies into an engineering-driven culture as the first full-time UX designer on Chrome DevTools

Launched AI tooling at scale to 20M+ users, designing and validating UI patterns now used industry-wide

Led the transformation of DevTools' 17-year-old UI into a modern, component-based design system, reducing manual UI review needs and accelerating development

Prioritized developer experience, helping DevTools reach an 89% user satisfaction rating and solidify its position as the #1 browser developer tool.

Publicis Sapient

Senior visual designer

Jun 2016 – Dec 2019

Led design projects for apps and websites in the automotive, energy, and retail sectors. Clients included Daimler, Mercedes-Benz, EnBW, Bosch, IQOS.

Won 1st price at the Digital Communication Awards 2019 for EnBW's corporate website redesign

Jung von Matt/Neckar

Art director/digital

Sep 2014 – May 2016

Designed digital platforms and creative campaigns for finance, insurance, travel, and retail clients

Designed Mercedes-Benz-Bank's interactive financing configurator, winning Bronze at the Digital Awards Germany

Scanbot

Designer

Jun 2012 – Sep 2014

Worked on UX and UI design for a document scanning app that became one of the most successful scanning apps for iOS and Android
